

## A2200 Release film P31

Item number: 02604 00002

## Technical data

Description The release film **A2200 - P31** is ideally suited to infusion applications.

### Features and Benefits

- Cost optimised, very flexible release film, ideal for use in resin infusion.
- Coloured clear orange to allow resin front to be clearly viewed during infusion and to aid complete removal when de-bagging.
- High conformability with good elongation compliment the film's excellent release characteristics.
- Suitable for use with epoxy, polyester and vinylester resins.  
*(Although it is advisable that a test piece is produced prior to committing to a full scale infusion in order to ensure that compatibility and performance meet desired standards.)*
- Available perforated or non-perforated.

<b>Product</b>	Thickness: 25 µm	Width: 1,45 m	Roll length: 500 lin m
<b>Properties</b>	<b>Characteristics</b>		<b>Test Method</b>
Max. use temperature	120 °C		
Tensile Strength (at break)	35 MPa		ASTM D882
Elongation (at break)	580 %		ASTM D882
Film / Density	PE / 0,953 g/cm <sup>3</sup>		
Colour	Clear orange		
Perforation pattern	P31 / hot needed	Diameter holes: 0,5 mm Spacing (centers): 5,7 mm/8 mm	

Storage: Store in original packaging. Do not store rolls on their ends.

Health & Safety: Please refer to the product MSDS for safe handling, personal protective equipment recommendations and disposal considerations.

The values presented in this data sheet are typical values and are not to be interpreted as product specifications. The purchaser is not released from the obligation to inspect the incoming goods. Test findings do not indicate the suitability of the product for a concrete application.
