

## SM5142 Sealant Tape

Item number: 02601 00007

## Technical data

**Description** The **sealant tape SM5142** is ideally suited to aerospace and automotive applications.

### Features

- Easy to apply by hand (User friendly)
- Ideal for oven and autoclave curing, temperatures of up to 204 °C (400 °F).
- Good level of tack against all tool surfaces.
- Excellent adhesion and “snap back” characteristics against all commonly used bagging films.
- Strips very cleanly and quickly from mould surfaces, both hot and cold.
- Tenacious adhesion to all commonly used vacuum bagging films.
- Non-Hazardous

|                |                 |              |                     |
|----------------|-----------------|--------------|---------------------|
| <b>Product</b> | Thickness: 3 mm | Width: 12 mm | Roll length: 9,14 m |
|----------------|-----------------|--------------|---------------------|

| Properties              | Characteristics                   |
|-------------------------|-----------------------------------|
| Maximum use temperature | 204 °C                            |
| Colour                  | Yellow                            |
| Roll size               | 9,14 m x 12 mm x 3 mm             |
| Standard box contents   | 32 rolls/box                      |
| Shelf life              | 12 month from date of manufacture |

**Storage condition:** Temperature: below 27 °C (81 °F)  
Must be stored flat in its original containers.

The values presented in this data sheet are typical values and are not to be interpreted as product specifications. The purchaser is not released from the obligation to inspect the incoming goods. Findings do not indicate the suitability of the product for a concrete application.
