

606B Flow media

Item number: 02201 00013

Technical data

Description **Flow media 606B** is a special knitted mesh that is used for resin distribution in resin infusion and similar processes. It can also be used as a reusable flexible/high stretch breather for vacuum bagging and consolidation.

Features

- Excellent resin flow
- High flexibility, adaptable for different shapes, corners and contours
- Can be used as external or internal resin flow medium
- Does not leave unsightly indentations
- Use up to 180 °C (*Melt point onset is 230 °C*)
- Can be used with all resin systems

Product	Flow media 606B	Width: 1,25 m	Roll length: 100 lin m
----------------	-----------------	---------------	------------------------

Properties	Characteristics
Maximum use temperature	180 °C
Colour	Clear (cristal) with black tracer
Fibre	PET polyester monofilament yarn
Construction	Knitted net
Weight	95 gms/m ²

NOTE: *Flow rate of the resin in the mesh roll direction is about 18% faster compared to the resin flow at 90 ° to the mesh roll direction. Therefore take note of the mesh direction when using.*

Ideal storage condition: No special storage conditions required.
