

Sealant Tape 81 BW

Item number: 02601 00041

Technical data

Description The **sealant tape 81 BW** is a butyl sealing tape with high adhesive properties formulated to ensure perfect sealing between vacuum films and moulds in autoclave. Material is compatible with most substrates incl. composite tools.

Suitable for use at temperatures up to **120 °C / 130 °C**.

Characteristics

- High bonding strength
- High tensile strength
- Highly adhesive

Advantages

- Easy application
- Removable at ambient temperature
- The surface of the mould remains clean

Product	Thickness: 3 mm	Width: 12 mm	Roll length: 15 m
----------------	-----------------	--------------	-------------------

Properties	Characteristics
Maximum use temperature	bag to tool: 120 °C / bag to bag: 130 °C
Application temperature	from +15 °C to +40 °C
Colour	Black or white
Roll size	15 m x 12 mm x 3 mm
Standard box contents	22 rolls/box
Shelf life	12 month from date of manufacture

Storage condition: Temperature between +5 °C and +30 °C
Must be stored dry and flat in its original containers.

The values presented in this data sheet are typical values and are not to be interpreted as product specifications. The purchaser is not released from the obligation to inspect the incoming goods. Findings do not indicate the suitability of the product for a concrete application.
