Peel Ply 40000 NAT

Item number: 02605 00056

Technical data

Description The Code 40000 is designed for vacuum bag lay-up composites and metal-tometal bonding structures and is made from 100 % nylon 6.6. The fiber melts at approx. 249°C (480°F) and is not resistant to phenolic resin system degradation.

The fabric leaves a fine surface impression for priming and secondary bonding.

The Peel Ply is available in precision slit widths of 58 inches or less.

Code 40000 is available as:

<u>Peel Ply</u>	FIN 060 - NAT	Scoured and Heat-Set finish	
<u>Release Ply</u>	FIN 061 - SRB	Super Release Blue An inert, heat stabilized, cross-linked polymer finish	

Product	Weight: 136 gram/m ²	Width: 1,10 m	Roll length: 274 lin m		
Properties	Charae	cteristics	Test Method		
Weight	136	gram/m²	Nominal		
Construction	Warp: 31 Weft: 22		Nominal		
Thickness		0,23 mm	Nominal		
Tensile Strength	Warp: 1713 Weft: 1424	Newtons Newtons	Nominal		
Extractable Material	s Less ti	han 0,5 %	Nominal (Petroleum Ether)		
Ideal storage condition: Temperature: +5 °C to +50 °C Relative humidity: 45 % to 65 % Avoid direct sun irradiation, colour change of textile does not lead to quality loss.					
The values presented in this data sheet are typical values and are not to be interpreted as product specifications. The purchaser is not released from the obligation to inspect the incoming goods. Test findings do not indicate the suitability of the product for a concrete application.
