

Vacuum Bag Connector 8825

Item number: 02900 00057

Technical data

Description

The 8825 vacuum bag connector from Composyst is a durable and reusable connector that enables quick and reliable connection of vacuum hoses to vacuum bags.

The design of this high temperature vacuum bag connector allows a controlled force to be applied to the pressure plate during assembly, creating a solid and reliable airtight seal.

Use

Place the base plate of the connector in the vacuum bag at the desired position. Make a small opening in the bag and screw the remaining half of the connector through the bag into the base plate from outside.

Use with temperatures up to 260 °C / 500°F.

Materials	Connector: Light weight aluminium	Gasket: Silicone
Base Plate Diameter:	2,5" - round	
Screw Thread:	1/2" - male	
Max. temperature	Gasket red: 260 °C	Gasket grey: 210 °C
Further details	Gasket red: ø 53 mm, thickness: 3,0 mm Gasket grey: ø 47 mm, thickness: 1,2 mm > Both gaskets are included in the scope of supply.	Item number: 02900 00066 Item number: 02900 00081
