

Vacuum Breach Unit

Item number: 02900 00067

Technical data

Description

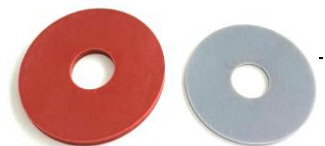

Vacuum Connectors – also referred to as **vacuum breach units** (VBUs) or vacuum valves, provide a vacuum connection through the vacuum bagging film. This two-part, through-bag connector has a 50mm diameter base and male 1/4" BSP thread.

Features and Benefits

- Allows air evacuation from the vacuum bag.
- Can be used in oven and autoclave.
- 1/4" BSP thread compatible with brass or steel non-return plug or socket.
- Silicone gasket can be replaced if needed.
- Two piece VBUs are self-perforating, removing the need to cut a hole in the bagging film.
- Long service life.

Use with temperatures up to 260 °C / 500 °F.

Materials	Connector: Light weight aluminium	Gasket: Silicone
Base Plate Diameter:	50 mm - round	Height: 37 mm
Screw Thread:	1/4 " - male	
Max. temperature	Gasket red: 260 °C	Gasket grey: 210 °C
Further details	Gasket red: ø 53 mm, thickness: 3,0 mm Gasket grey: ø 47 mm, thickness: 1,2 mm > Both gaskets are included in the scope of supply.	Item number: 02900 00066 Item number: 02900 00081
Storage:	No specific requirement.	
Health & Safety:	Please refer to the product MSDS for safe handling, personal protective equipment recommendations and disposal considerations.
