

# DESIGN

## WHEN FUNCTION TRANSFORMS INTO AESTHETIC SHAPE

It is not only the lightness of composite structures that offers multiple application possibilities – the virtually unlimited mouldability of textile composites and resin gives experienced manufacturers maximum

design freedom. Production of limited editions and unique items can easily be customised or personalised, making such products highly attractive for specific target groups.

# DESIGN

IN ORDER TO HELP DESIGNERS  
THINK LIMITLESSLY,  
THEY MUST KNOW THAT  
EVERYTHING IS POSSIBLE.

## YOUR BENEFITS

- 30 years of experience in design-oriented projects
- Detail-oriented
- Unlimited design options
- Customization
- Better performance
